Gail, this is to thank you for your excellent training service to us. Several of our First Aiders have used your approaches and techniques during various safety and health incidents here at the firm. One of our recent trainees for field First Aid, Jason Maldonado, was at a local restaurant this week and successfully used the Heimlich maneuver on a person in extreme distress. We never know when or where these skills will be called upon. Thanks again Gail. We look forward to increasing our skills with you in the future.
